

3D Printers. Bambu Labs.

<https://bambulab.com/en-us>

Model P2S has good features for the Hobbiest.

The screenshot shows the Bambu Lab website's navigation bar with links for Products, Filament, Accessories, Software, MakerWorld, Explore, Support, and a user icon. Below the navigation is a section for 'Consumer 3D Printers' with links to 'Shop Now' and 'Compare Models'. The section displays six 3D printer models in two rows of three:

- Bambu Lab H2 Series**
Personal Manufacturing Hub
- Bambu Lab P2S**
The All-Round Best Value Workhorse
- Bambu Lab X1C**
The Flagship CoreXY 3D Printer

- Bambu Lab P1**
The Versatile Workhorse 3D Printer
- Bambu Lab A1**
Full-size Gateway 3D Printer
- Bambu Lab A1 mini**
The G.O.A.T of Entry-Level 3D Printers

Below this is a section for the 'Automatic Material System' with links to 'Shop Now' and 'Compare Models'. It shows three products:

- AMS 2 Pro**
Drying, Storage, Feeding in One Box
- AMS HT**
Specialized for High-Performance Materials
- AMS**
The Original Automatic Material System
