'Home' 'About' Info for Guide2Source.com webpage 10/03/2025

It's webmaster is Fred E. Wahl wahlfred9@gmail.com

Contact Fred if you wish to become a user of this site and you have some Product Catalogs you want installed into it for your private use.

Catalogs to be installed if already in PDF format should be emailed to him. If you have only a spare copy of a paper Product Catalog mail it to him. In email to him ask him for his mail address.

Fred 'guillotines' paper catalogs using FEDEX service and then scans them into electronic PDF files. He renames the files to make them useful in this webpage.

Standard PDF file Naming Method to be used in guide2source.com is:

"sort code"- "Supplier"- "Catalog or Brochure Name with date or volume"- "Item Types"

example: 00022-RAF-RafRoundSpacers-Spacers.pdf

note: "sort code" helps to alphabetically arrange files in useful orders.

Other example "sort codes" might be:

00000 this file

00123

00999

0001Y

0089Z

Keep <spaces> out of each "name field",

Use Capitals and lowercase to combine words into a particular "name field".

example: for a "catalog Name" -RafRoundSpacers

11/9/2025 This website is being designed/developed by Fred E. Wahl and coded with the 'assistance' of text Artificial Intelligence AI "ChatGPT-5".

No 'revision number' has yet been assigned to this 'freeware' webpage.

At this time about 109 hours has been spent creating this Webpage.

11/20/25 By this time a total of 125 hours has been devoted to continuing design and debug of the site. Since 11/9, weâ€™ve had several more substantial sessions: debugging Phase1/Phase2/Phase3 routing and user switcher, Phase 2 metadata tool, CSV files, and LIVE sync.

The site is LIVE at www.guide2source.com

following pages show how to use the site. Red highlighted arrows with text show how various buttons may be used. Phase4 is a more advanced ItemID search than Phase3's. It is more "GoogleSearch-like".
